Experience

HandMad3 / Front-End Developer

April 2022 - December 2023, Sachse, TX

Developed and maintained a dynamic e-commerce platform on Shopify to drive sales and enhance online shopping experience for apparel customers. Leveraged strategic updates and optimizations to continually improve site performance, resulting in increased customer engagement and revenue.

Projects

Exercise Assistant App

Engineered a robust fitness application with React, integrating multiple APIs to provide users with tailored exercise recommendations targeting specific muscle groups. Implemented seamless integration with YouTube guides, enhancing user experience and facilitating efficient workouts. Leveraged modern web development techniques to ensure scalability, performance, and user engagement in this dynamic full-stack project.

Gaming Stats Website

Developed a dynamic web application utilizing React and Riot Games API to provide users with real-time in-game data from League of Legends. Designed a user-friendly interface for seamless navigation and efficient access to game statistics. Leveraged full-stack development skills to ensure optimal performance and data accuracy, showcasing proficiency in frontend and backend integration.

Education

Full Sail University / Bachelors of Science: Web Development

2021 - August 2023, Winter Park, FL

- Awarded Valedictorian
- 3.97 GPA
